thesharecentre:
simply easier

SQL DBA/DEVELOPER

CONTRACT TYPE: Permanent and full time
REPORTING TO: SQL/DBA Team Leader
DIRECT REPORTS: 0

WHAT WE DO:

The Share Centre is an ambitious, fast paced and growing company based in Aylesbury, Buckinghamshire. We pride ourselves on delivering top-quality customer service, for which are multiple award winners. Our aim is to make investing simply easier. We're committed to finding the best people to help us build our business, rewarding our employees with excellent benefits and proven career development opportunities. In 2018 we were proud to be accredited a Silver Investors in People award, identifying us as a great employer, an outperforming place to work and for having a clear commitment to sustainability.

WHAT YOU'LL BE DOING:

As a SQL DBA / Developer you'll be responsible for:

Working with the SQL Team Leader to provide estimates and agree priorities and timescales

Working with the application developers to design innovative solutions to complex problems

Building, testing and deploying solutions using industry standard processes and procedures

Design and implementation of efficient and robust tools for building, deploying and testing the databases

Design and implementation of appropriate security measures taking into account industry regulations

Providing ongoing support of the live databases using proactive monitoring and alerting

Planning and implementation of preventative maintenance procedures needed to keep the databases running at an optimal level

Ensuring that the environment to be used in the event of a disaster is fully maintained and able to be used within the agreed SLA

Providing expertise in T-SQL, SQL Server Administration & Database Design

Working alongside Developers to maintain and improve all application interaction with SQL Server.

Providing support to business users in their needs for reports, information and stable systems.

WHO WE'RE LOOKING FOR:

We're looking for energetic, enthusiastic and motivated individuals who are passionate about providing excellent technical services in a lively and fast paced workplace.

You'll need to be confident in being in providing support for database issues and display excellent attention to detail and accuracy.

Your proven experience in a SQL DBA role and environment will demonstrate strong self-motivation, problem solving skills, creativity and initiative.

You'll need to have a minimum of 4 years' experience, alongside qualifications in SQL Server administration and development.

You'll be confident and efficient with MS SQL Server 2012 and above, T-SQL, Windows Server 2012 and above, Server and Database backup solutions, High Availability, SQL Server Integration Reporting and Analysis services, SQL monitoring and Deployment tools such as Spotlight and/or Redgate tools.

IT skills in Microsoft Office, Word, Excel and Outlook will be supported by well-developed written and verbal communication skills.

A willingness to be a team player as well as take the lead at times will be required.

As a SQL DBA/Developer you'll have the passion to do the right thing for the integrity and reliability of the database systems and a willingness to go the extra mile.
